STATUS: PLANNING - COMPLETE

The Mills @ Ridge Hill integrates approximately one and a half million square feet of retail with residential, office and hotel uses. Located on a ridge overlooking both the New York State Thruway and the Sprain Brook Parkway, the development is easily accessible to numerous visitors and highly visible.

The project offers the best of both lifestyle center and Main Street shopping experiences, in essence blending the two seamlessly together. Exterior space gets the same attention as interior shops. The comfort and scale encourage shoppers to linger both inside and out.

The overall design shapes dynamic relationships between the buildings, landscape, as well as, the surrounding development at a scale that encourages pedestrian activity within this mixed-use environment.

The work described on this page was completed by David Robbins while working with RTKL Associates Inc.
