DEVELOPMENT ONGOING

Springdale is at the heart of the nation's eighth-best performing region and situated in rapidly growing Northwest Arkansas. Because of this, residential and corporate growth has dramatically outpaced retail and service development. These services are now provided within the Springdale Arena District, a dynamic live, work and play environment developed around a new AAA ballpark and sports arena and featuring over 400,000 square feet of retail, restaurant, office, education and healthcare facilities as well as residential areas including executive housing, condominiums, apartments and townhouses.

The work described on this page was completed by David Robbins while working with the HOK Planning Group.
