LANDSCAPE ARCHITECTURE

STATUS: PLANNING - COMPLETE

Integrating University Athletics into residential neighborhoods. The Pantherville Athletic Complex, located 10 miles east of downtown on I-20, is home to the Georgia State University's baseball, softball, soccer and cross country teams. The master plan for the project calls for the renovation and expansion of facilities, as well as additional parking to meet the community's needs. The buffering of the facilities from both the adjoining neighborhood and creek were a central focus, while at the same time providing adequate connections and access.

The work described on this page was completed by David Robbins while working with the HOK Planning Group.
